Formative assessments aim to track learning progress. The assessments shall be in the form of topical tests, quizzes, assignments and projects, which shall be determined by the subject teacher as deemed appropriate. The student's performance is recorded by the subject teacher and will be used as a reference point for the Mid-Year and Year-End reports.

Summative assessments aim to evaluate the achievement of learning. The assessments shall be fully exam-based. The marks from all internal summative assessments will be recorded in the Mid-Year and Year-End reports, except for the Checkpoint Pre-Test for Y9, which will be recorded by the subject teacher for reference instead.
